

**New Kintera FundWare Module Offers Full Lifecycle Asset Tracking**  
*Organizations Can Centrally Track Acquisition, Depreciation and Disposal of Critical Assets*

**SAN DIEGO - Dec. 8, 2005** - Kintera® Inc. (NASDAQ: KNTA) today announced the release of the Kintera FundWare® Fixed Assets module, which tracks all fixed assets through their full lifecycle including acquisition, depreciation and disposal. Nonprofits and government organizations can now track critical assets in one convenient location.

The module includes a full list of depreciation methods including straight-line, double declining balance and MACRS if applicable, and allows users to record depreciation using several methods depending on the asset. Standard reports, such as Asset Master, History and Depreciation Summary, are included in the module, and user-defined reports can be created using key data to support management of fixed assets. In addition, the flexible system enables users to identify how assets in the organization are posted.

"Kintera FundWare's Fixed Assets module enables our organization to operate more efficiently by providing comprehensive asset tracking in one location," said Keith Blundell, comptroller for Victoria College. "In addition, the flexible reporting and feature functionality is unparalleled."

Kintera FundWare Fixed Assets module enables users to:

- Produce preliminary depreciation calculation reports prior to posting for verification purposes
- Automatically calculate depreciation from date of last depreciation recorded and record depreciation calculation by posting date
- Purge disposed assets on demand using the disposal date
- Track historical transactions for each asset
- Adjust replacement value for a group of assets instead of modifying each record

"The Kintera FundWare Fixed Assets module was designed to provide complete asset tracking in a centralized location, offering flexible financial reporting," said Harry Chiu, vice president of Kintera FundWare. "Ideal for managing small or large volumes of assets, the full lifecycle tracking approach is essential for today's nonprofit and government organization."

Integrating seamlessly with the FundWare General Ledger, Fixed Assets offers a familiar Windows-based interface and navigation. The module is the first in a series of major product enhancements planned for release by Kintera FundWare. The award-winning Kintera FundWare product suite unites accounting, budgeting and reporting tools with a precise audit trail to minimize financial management pressures for nonprofits and government organizations.

***About Kintera, Inc.***

Kintera®, Inc. (NASDAQ: KNTA) provides an online solution to help nonprofit organizations deliver The Giving Experience™ to donors - including giving convenience, financial transparency, feedback about the social impact of their gifts, and a sense of belonging and appreciation.

More than 15,000 accounts in the nonprofit, government and corporate sectors use Kintera's "software as a service" innovations, including the Friends Asking Friends® fundraising program and Kintera Sphere™, an enterprise-grade software platform that provides a secure, scalable and reliable system for customer relationship management (CRM), a web content management system (CMS), eMarketing and directed giving applications. Additionally, Kintera FundWare® provides award-winning financial management software developed for nonprofit organizations and governments.

Kintera also provides the Kintera GivingFund™ payment option offering donors Internet convenience for initiating grant requests from their Donor Advised Funds (DAF). Organizations sponsoring donor advised funds as well as recipient nonprofits and foundations are now able to provide improved customer service to philanthropists through this new, innovative way to make major gifts online. A one-time DAF, CharityGift™, is available for purchase at Kintera's The Giving Communities™ interactive website at [www.kintera.org](http://www.kintera.org). The site is also a destination for consumers to connect with thousands of causes and organizations.

For more information about Kintera's software and services, visit [www.kintera.com](http://www.kintera.com).

***Forward-Looking Statements***

*In addition to historical information, this press release contains forward-looking statements (including, without limitation, express or implied statements regarding the adoption of software solutions by nonprofit organizations) that involve risks and uncertainties. These forward-looking statements represent our estimates and assumptions only as of the date hereof. These statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. These statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. These risks and uncertainties include, without limitation: our limited operating history; our history of losses; our dependence on increased acceptance by nonprofit organizations of online fundraising; lengthy sales cycles for major customers; our need to manage growth; risks associated with accounting for and processing large amounts of donations; the rapidly changing technologies and market demands; and other risks identified in our filings with the Securities and Exchange Commission. Given these uncertainties, you should not place undue reliance on these forward-looking statements.*
